DETAILED ACTION

Summary

On August 31, 2006, an Office Action was sent to the Applicant rejecting claims 1-20. On November 30, 2006, the Applicant responded with arguments.

35 U.S.C. 251 Rejection

The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414.

Claims 1-20 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The declaration does not contain the following:

II. A STATEMENT OF AT LEAST ONE ERROR WHICH IS RELIED UPON TO SUPPORT THE REISSUE APPLICATION (I.E., THE BASIS FOR THE REISSUE).

A reissue applicant must acknowledge the **existence of an error in the specification, drawings, or claims, which error causes the original patent to be defective**. In re Wilder, 736 F.2d 1516, 222 USPQ 369 (Fed. Cir. 1984). A change or departure from the original specification or claims represents an "error" in the original patent under 35 U.S.C. 251. See MPEP §1402 for a discussion of grounds for filing a reissue that may constitute the "error" required by 35 U.S.C. 251. Not all changes with respect to the patent constitute the "error" required by 35U.S.C. 251.

Applicant need only specify in the reissue oath /declaration one of the errors

Art Unit: 3691

upon which reissue is based. Where applicant specifies one such error, this requirement of a reissue oath /declaration is satisfied. Applicant may specify more than one error.

The nature of the defect(s) in the application is set forth in the discussion above in this Office action.

Reissue Consent

On March 1, 2006, the Examiner explained to the Applicant that a new consent was needed, since the consent did not have the required box filled indicating the attached 3.73(b). The Applicant stated that another copy would be sent to the central fax; however, the copy was never received.

Response to Arguments

Applicant's arguments filed November 30, 2006 have been fully considered but they are not persuasive. As pointed out in the telephonic interview on March 1, 2006 and in the previous Office Action, the Applicant must point out the existence of at least **an error in the specification, drawings, or claims, which causes the patent to be defective**. The Applicant merely states that the "Patentee claimed less than he had the right to" as the error upon which the reissue is based, which is not sufficient.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 3691

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
